SUMMARY

Data Analyst with 3 years of experience in user growth and conversion optimization, including internships and full-time roles at Shanghai Yunshu Tech and Hangzhou E-commerce Group. Skilled in Python, SQL, Tableau, and Excel, with a B.A. in Economics from Fudan University (GPA 3.6/4.0) and JLPT N2 certification. Achieved an 87.5% efficiency improvement in reporting and a 5.2% lift in conversion rates through data-driven experiments.

EXPERIENCE

Data Analyst — Hangzhou E-commerce Group 2024.07 – 2026.06

- Analyzed repurchase rates and user segmentation, designing an RFM model covering 5 million users
- Led conversion optimization experiments, boosting target page conversion rate by 5.2%

Data Analyst Intern — Shanghai Yunshu Tech Co., Ltd. 2023.07 – 2023.09

- Compiled weekly user growth reports tracking DAU, retention, and conversion metrics
- Built automated dashboards, reducing report preparation time from 4 hours to 30 minutes
- Supported A/B experiment analysis, delivering 12 experiment reports cumulatively

EDUCATION

Fudan University — B.A. in Economics 2020.09 – 2024.06

GPA: 3.6/4.0; 校级奖学金 (2022)

SKILLS

- Technical:** Python (pandas / matplotlib), SQL (MySQL / Hive), Tableau, Excel
- Languages:** Japanese (N2), English (CET-6)
- Certifications:** JLPT N2 (2023.12)
